DETAILED ACTION

1. The amendment filed November 25, 2002 has been entered. It is noted that in view of the new amendment practice under 37 CFR 1.121 which became mandatory for all amendments on March 1, 2001, and due to the limited amount of examining time per application, if the amendment contains changes to existing language that requires a marked-up version showing those changes, the Examiner is relying upon the marked-up version(s) for examination of the application. It is applicant's responsibility to ensure that the clean version(s) is (are) the same as the marked-up version(s). It is further noted that the clean version(s) is (are) considered to be the Official version(s).

Information Disclosure Statement

2. The information disclosure statements filed November 25, 2002 (paper no. 12) and January 14, 2003 (paper no. 15) have been received and the references listed thereon have been considered.

Drawings

3. The corrected formal drawings filed on November 25, 2002 have been received.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 3, 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Perrin et al., pn 4,378,912.

Perrin discloses a web transfer mechanism with every structural limitation of the claimed invention including a sensing mechanism (e.g., 54), a stop arm (e.g., 48), and a transfer arm (66).

Allowable Subject Matter

6. Claims 4-6 are allowable over the prior art of record.

Response to Arguments

7. Applicant's arguments with respect to claims 1, 3, 7 and 8 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3724

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
